

ECell - IITG

# INTRODUCING ALUM CONNECT

RECONNECT MENTOR GROW

## OUR VISION

# BRIDGING THE GAP BETWEEN STUDENTS AND ALUMNI

A centralized platform where alumni and students can easily network, share guidance, and access opportunities, addressing the current gaps in engagement and communication. It aims to enhance alumni-student interactions .

# VALUE PROPOSITION

## STUDENTS

**Direct, streamlined access** to alumni for mentorship, career advice, and real opportunities. No more scattered searches—students can find industry-relevant alumni, internship leads, and masterclasses in one dedicated space.

Giving back (mentoring, internships)

Staying Updated

Professional networking

Reconnection

# VALUE PROPOSITION

## ALUMNI

Effortlessly reconnect with their alma mater and fellow graduates through a dedicated, professional platform. It offers a meaningful way to give back—by mentoring students, sharing internships, or hosting masterclasses—on their own terms.

Potential Improved reputation of collage

Better data

Potential fundraising

# VALUE PROPOSITION INSTITUTE

By centralizing alumni activity, the platform enables better data collection, stronger relationships, and insight-driven outreach for initiatives like fundraising and mentorship. This enhanced connectivity not only uplifts the institution's reputation but also reinforces its ecosystem of success through alumni-driven impact.

# OUR SURVEY FINDINGS

# WHAT MAKES US DIFFERENT?

"A one-stop, secure, and dynamic platform for alumni and students to connect, mentor, and grow together."

## Seamless Alumni-Student Mentorship

Effortlessly matches students with relevant alumni mentors based on career interests, skills, and industry aspirations.

## Secure & Exclusive Community

- Access is restricted to verified IITG alumni and students, ensuring privacy and trust.
- Data protection and encrypted messaging keep all interactions confidential and safe.

## Dynamic Networking Opportunities

Facilitates connections not just within batches, but across generations—helping students learn from the diverse experiences of distinguished alumni.

## Real Impact & Giving Back

Alumni can easily give back through mentorship, guest lectures, or supporting campus initiatives.

# USER PERSONAS

## 2ND YEARITE

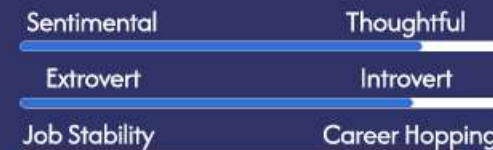

**AMAN SINGH**

**Branch:** CSE

**Age:** 20

**Year:**  
4th Year (EEE)

**Location:** Guwahati

Aman Singh is 2nd year Btech CSE student who has been focusing on building projects for the upcoming internship season. He has considered working on his startup idea but is still confused about the execution. He wants deeper industry connections early on, helping him avoid career blunders.

### SAYS

- "I want to establish strong industry connections giving me a leg up during internships and helping me build a strong CV."

### THINKS

- "I have a startup idea but executing it without the right mentorship could be a hurdle in my career."

### DOES

- Works on building a hands-on CV with projects and reaches out to alumni on LinkedIn.

### FEELS

- Fearful about the startup idea and unseen by alumni on common forums.

## 4TH YEARITE

**YASHVI**

**Branch:** EEE

**Age:** 22

**Year:**

*4th Year (EEE)*

**Location:** Guwahati

Yashvi is a final year EEE student, she has a strong foundation in DSA and full stack. She gained invaluable experience from her internship at a startup but her networking took a hit. She needs guidance before, during and after her job search.

### SAYS

- "I need help standing out before placements, building strong connections after and setting groundwork for future plans."

### THINKS

- "I wonder if experience and hard skills alone will be enough in navigating placements."

### DOES

- Has recently started active LinkedIn participation and sends connection requests to alumni.

### FEELS

- Intimidated by approaching alumni online.
- Worried cold-messaging would give off the wrong impression.

## RESEARCHER

**GAYATRI SHARMA**

**Branch:** PhD. in CL

**Age:** 26

**Occupation:**

*Student*

**Location:** Guwahati

Gayatri Sharma, a PHD student has Clarity on postdoc or industry roles and is looking for Opportunities to publish research papers and grow academically

### SAYS

- "I want to connect with people who've walked this path."
- "I need to avoid common pitfalls at IITG."

### THINKS

- "Am I on the right career path?"
- "How do I access more funding and mentorship?"

### DOES

- Attends seminars and workshops
- Seeks mentors and networks online

### FEELS

- Isolated and uncertain about the future
- Curious, resilient, and driven by purpose

## RECENT ALUM

### 2018 BATCH

**PRIYA SINGH**

**Branch:** Mechanical

**Age:** 26

**Occupation:**

*Product Analyst at  
a Tech Startup*

**Location:** Bangalore

Priya Singh, an ambitious engineering graduate exploring diverse career paths, seeking growth, mentorship, and meaningful alumni connections.

#### SAYS

- I'm happy to help — but I need to know where my time is being used.
- I will definitely download the app if it helps me spot serious, relevant students without wasting time.

#### DOES

- Filters students by field, effort shown, or common background
- Engages in short-term help: reviewing a resume, a 15-min call, forwarding a referral link

#### THINKS

- There should be a way for students to express clear goals when they reach out.
- If I could tag opportunities for students or refer them, that would be valuable.

#### FEELS

- Inspired – “Glad to help juniors”
- Overwhelmed – “Too many messages, and not enough time.”
- Willing – wants to help the next her — just the ones who values it.

## SENIOR ALUM

### 2000 BATCH

**MOHIT WADHWA**

**Branch:** Mechanical

**Age:** 47

**Occupation:**

*Vice President,  
Goldman Sachs*

**Location:** Bangalore

He leads risk strategy and client portfolios across global markets. With over a decade in finance, he has worked in London, Singapore, and now Bangalore. Outside of work, he's a dedicated father of two who enjoys traveling with his family.

On quieter days, he often finds himself reminiscing his college days and the thought of finding ways to reconnect and staying involved crosses his mind every now and then.

#### SAYS

- “No matter how far life takes us, a part of me still walks those campus corridors.”

#### DOES

- Occasionally scrolls through college social media or email invites.
- Participates in alumni reunions or visits the campus when time permits.

#### THINKS

- “I hope students don't just ask for referrals without building a relationship first.”
- Wants to build relations that will help me grow my company

#### FEELS

- Disconnected from current campus life.
- Feels time-strapped even if he wants to contribute.

# SWOT ANALYSIS

- IITG community specific - filters through the crowds making connection easier.
- Direct mentorship- making resources and guidance easily accessible
- Lucrative to campus junta seeking internship opportunities.
- Nostalgia contributes as a motive for older alum involvement.
- Permeability to communication barriers usually present with older alums- making them more approachable to newer alums.
- Campus updates and notifications, keeping alumni connected and informed.

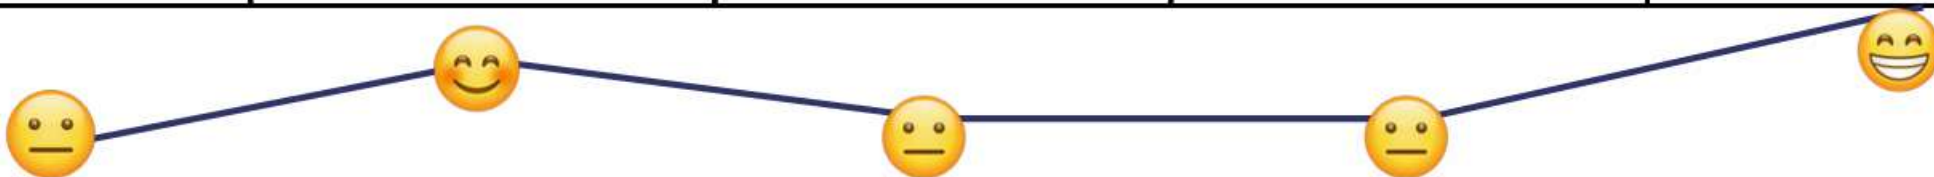

- Potential influx of spam/ unrelated messages, usually from campus junta- requires initial moderation.
- Storing personal and professional data might require a larger amount of resources alongside real time updates across the app.
- User retention and incentivisation- keeping them coming back might prove to be a challenge.

- 84.6% of alums express dissatisfaction about their contributions towards their alma mater (upto 3 between 1-5 on the satisfaction scale).
- Active interest from mid year alums
- Need for connection efforts, active measures to seek alumni involvement.
- Growing importance for networking in the competitive job market.

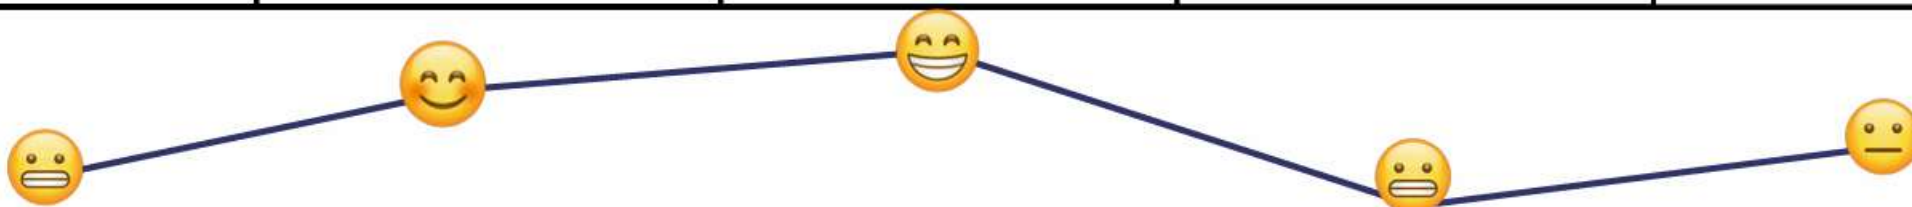

- Onboarding and retention of older alums could prove difficult taking away an important use case for other alums looking for guidance/ network.
- Inactivity- major concerns for alums, usually due to lack of engagement from older alums.
- LinkedIn preference
- Campus junta could dominate the user base causing discomfort to alums, either on a professional or personal level.

# USER JOURNEY: STUDENTS

|                              | Onboarding & Opportunity Discovery                                                   | Exploring Alumni Profiles                                              | Initiating Contact                                                  | Sharing Resume / Requesting Mentorship                           | Receiving Feedback / Guidance                                 |
|------------------------------|--------------------------------------------------------------------------------------|------------------------------------------------------------------------|---------------------------------------------------------------------|------------------------------------------------------------------|---------------------------------------------------------------|
| <b>User Actions</b>          | Student signs up, fills career interests, explores internship & mentorship options   | Browses alumni profiles using filters, views mentor tags or job titles | Sends message to alumni (for mentorship/internship) using templates | Shares resume (if internship) or sends mentoring goals/questions | Attends 1:1 call/video chat or receives message/feedback      |
| <b>Touchpoints</b>           | Mobile app interface, profile setup, Internships board                               | Mentor directory, LinkedIn/profile links, filters (company, industry)  | Mainly using a chat based system, can also initiate via calls/meets | Resume uploader, message/chat box with guidance prompts          | Video call/chat interface, notification center, summary email |
| <b>Sentiments</b>            | "I hope I find someone in my domain or a good opportunity."                          | "Wow, this alum works at my dream company!"                            | "Should I write something formal? Will they reply to me?"           | "Is my resume/guidance request presented properly?"              | "Finally! This is so helpful, I got feedback and insights."   |
| <b>Emotions (Mood Meter)</b> |  |                                                                        |                                                                     |                                                                  |                                                               |
| <b>Possible Solutions</b>    | Smart onboarding with suggestions & interest based curated lists                     | Highlight alumni open to mentoring or internships                      | Built in message templates                                          | Resume quality checker / question prompt suggestions             | Enable note-taking, save insights features                    |

# USER JOURNEY: ALUMNI

|                       | Onboarding & Interest                                                                                 | Receiving Request/ Interest                                                      | Interacting with Student or Content                                   | Reflecting & Tracking                                           | Communication & Growing Network                                       |

| User Actions          | Profile set up, Selects "Open to Mentoring", Posts internship openings, Explores gallery for memories | Gets mentorship/internship requests, Gets tagged in photos or receives reactions | Chats with students, Reviews resumes, Uploads photos or tags peers    | Tracks mentee/internship impact, Sees which posts got attention | Follows up with mentees, Chats with tagged peers, Recommends students |
| Touchpoints           | Profile setup, Mentorship toggle, Internship portal, Throwback section                                | Notifications, Request/ Resume preview, Tag alerts                               | Messaging/video call, Resume viewer, Upload photos, like/comment      | Dashboard, Email digests, View/photo stats                      | Suggested chats, Alumni channels                                      |
| Sentiments            | "Happy to help juniors, time is a factor though."                                                     | "They've done their prep nice to see these pictures."                            | "Feels good to guide & share memories."                               | "Nice to see impact / engagement."                              | "Nice to reconnect and refer students."                               |
| Emotions (Mood Meter) |                   |                                                                                  |                                                                       |                                                                 |                                                                       |
| Possible Solutions    | Time commitment slider, Auto-sort gallery                                                             | Profile preview before reply, Highlight/star students, Tag alerts                | Calendar sync for calls, Resume review shortcuts, Smart photo tagging | Analytics on engagement, Mentee/intern tracker                  | Recommend students, Chat suggestions via tags                         |

# GO-TO-MARKET STRATEGY

## PRIORITY 1

Target 2010-2025 alumni (higher corporate participation)

## PRIORITY 2

Engage 1995-2010 Alumni through mentorship programmes

## DIGITAL LAUNCH

### INSTAGRAM / LINKEDIN "ALUMNI SHOUTOUT" CHALLENGE

- Students post: "Shoutout to [Alum Name]! I'd love to connect on AlumConnect!"
- Best posts win cafeteria coupons or merch.

### MEMES & RELATABLE CONTENT

- Post funny memes about "When an alum replies to your DM" or "Finally no LinkedIn premium needed!"

### WHATSAPP FORWARDING STRATEGY

- Create a viral message: "Hey! Our college just launched AlumConnect—a FREE way to network with alumni. Join now: [link]"
- Encourage students to forward it to other group chats.

## ON-CAMPUS ACTIVATION

### "ALUM CONNECT DAY" BOOTH

- Set up in the canteen/library with:
- Live demos (show how to DM an alum in 10 sec).
- Freebies (stickers) for signing up.

### FLASH NETWORKING EVENT

- Organize a 30-min speed networking session where students & alumni meet IRL (then connect on the app).

### "FIRST 100 USERS GET..."

- Priority access to top alumni (e.g., first to book mentorship slots).
- Physical "AlumConnect VIP" cards (just for fun).

# COMPARATIVE LANDSCAPE

## ALUMNI ENGAGEMENT PLATFORMS

CORE VISION : Community Building

CORE VISION : Alum Management for Educational Institutions only

CORE VISION : Alum Management for Companies & Institutions

(INDIRECT ALUM MANAGEMENT)

# COMPARING PLATFORMS FROM EACH CATEGORY

*(As Same Category COMPANIES HAVE SIMILAR FEATURES)*

## 1 HIVEBRITE

Hivebrite gives community building services with really upgraded tech including AI matches and all (Not just Alumni)

## 2 360ALUMNI

360ALUMNI focuses exactly on our value proposition building applications for universities and colleges to have their alumni and students get to know each other at a place.

## 3 TEN THOUSAND COFFEES

Facilitates mentorship & intentional networking (e.g., alumni, corporate programs).

Ten  
Thousand  
Coffees

## 4 LINKEDIN

Social networking platform specifically designed for professionals to connect, network, and find job opportunities

# SENTIMENT ANALYSIS

## UNDERSTANDING USERS BETTER

**Neha:** Hey Krish bhaiya, how's the job going? I was just wondering if you've had any sort of connection with your Alma mater since you've graduated.

**Krish:** Hi Neha! The job has been a wonderful learning experience! I've tried a few apps here and there but none have really worked out for me.

**Neha:** Which ones? I need help networking with alumni, considering the fact that I'm applying for an internship soon.

**Krish:** Well I've tried **360Alumni** It works well for *basic connection, but doesn't really offer deeper interaction and guidance, plus it doesn't recognise alumni for their contributions.*

**Neha:** Oh! Have you heard about Hivebrite?

**Krish:** Well yes, **hivebrite** works amazingly with *larger communities* but it *doesn't offer a lot of project opportunities or research postings with alumni.* Have you tried out **Ten Thousand Coffees** though?

**Neha:** Oh yeah! The *AI integration is helpful but it blocks me from direct connections and there's no direct help with resume optimization.*

**Krish:** Well there's always **LinkedIn**, although it's rather for a *more general professional use case* and *i've struggled with looking for older established alums.*

**Neha:** Yeah, *LinkedIn feels more like a professional showcase!* Connecting with alumni is definitely something that requires quite a bit of effort!

## User sentiment

## Alum Connect in comparison

While the basic connection features work well, it lacks in-depth networking, guided advice, with little-to-no community building.

No alumni recognition or spotlight.

One-to-one mentorship matching and alumni resume reviews support deeper interaction, with interest-based groups supporting a sense of community.

Alumni spotlight, awards and badges.

Even with advanced grouping and connection options, collaboration lags behind (projects/hackathons)

Ability to join alum-led projects, with comparable niche-community formation capabilities.

Although the app focuses on 1:1 connections and is AI driven, there are no group discussion/peer learning features with limited alumni spotlighting. Connection is mainly AI-driven. There's also no resume/interview help.

AMA from volunteer alums, with recognition for them. Request-based mentorship offered and extensive interview prep.

## User sentiment

## Alum Connect in comparison

**LinkedIn**

It is the go-to professional connection app, but lacks deeper connection opportunities. Functions focus more on display of professional skills,

Mentor-student connection, niche community building, community-specific networking opportunities.

THIS IS WHY

# ALUM CONNECT

IS NEEDED

"A one-stop, secure, and dynamic platform for alumni and students to connect, mentor, and grow together."
